WITH
RULER

Print on 8.5" x 11" or A4 paper and check scale with a ruler to make sure your printer did not scale the page. Next, place your guitar's pickguard on the printed sheet of paper and take a photo of the entire sheet including the edges. Try to take the photo as straight as possible and email or upload the photo to customshop@thaliacapos.com. We will then make an outline of your pickguard including screw holes and send it back so you can print and test the accuracy of the shape.
