

Print on 8.5" x 11" or A4 paper and check box scale with a ruler to make sure the printer did not scale the page. You can then place your truss rod cover over the shape to check fit.

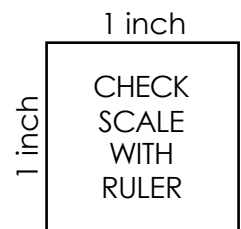

If your truss rod shape is not included here, use the next page and take a photo of your truss rod cover and upload or send to customshop@thaliacapos.com and we will make an outline and send it back to you for your confirmation.

Print on 8.5" x 11" or A4 paper and check scale with a ruler to make sure your printer did not scale the page. Next, place your guitar's truss rod cover on the printed sheet of paper and take a photo of the entire sheet including the edges. Try to take the photo as straight as possible and upload it or email the photo to customshop@thaliacapos.com. We will then make an outline of your truss rod cover including screw holes and send it back so you can print and test the accuracy of the shape.
